

Special Start for ... Exceptional Children

Special Education Pre-School for Medically Fragile Children

ENROLL NOW!

Limited Spaces Available for children ages 0-5!

Our Philosophy

Our experienced pediatric staff provide a unique approach in balancing a child's medical, developmental, social, and educational needs within a nurturing family centered environment.

Center Based Classrooms

Classrooms are divided into centers such as art, block building, manipulatives, and sensory play. Materials and activities are individualized based on age, ability and appropriateness.

Class Schedule

Monday through Saturday, Spring Break, Winter Break, Summer Vacation and most school holidays. Children may attend full or half-day sessions year round.

Staff

Our teacher is certified in early childhood education and has a masters degree. Our pediatric nursing staff includes registered nurses, licensed vocational nurses, and certified nursing assistants. Our staff will work with the family, physician, therapists and school district to create an (IEP) Individualized Education Program and medical treatment plan for each child.

No Charge to qualified families

Medically fragile children ages birth to 5 years old who are either Medically at Risk, Medically Dependent, or Technology Dependent.

We love kids ... and it shows!
